INFLUENZA is making terrible ravages in Thousands of people are down, and once the disease finds its way into a house there seems to be absolutely no chance of escape for any of the inmates. As yet we have not heard of any fatal cases in the capital. It would appear, indeed, that only persons with weak lungs have anything serious to apprehend. The sicknosa makes itself felt at the outset in the form of severe headache and feverishness. The fever generally runs its course in about 48 hours, but it is apt to recur, and under any circumstances the weakness and prostration produced are quite out of proportion to the seeming violence of the attacks: -Japan Mail.
